

COMPANY PROFILE

Building Egypt's infrastructure. Securing its digital trust.

Integrated engineering & contracting, digital trust technology, and international trading — for government, institutional, and private clients across Egypt.

01

Engineering & Contracting

02

Technology & Digital Trust

03

Trading & Supply

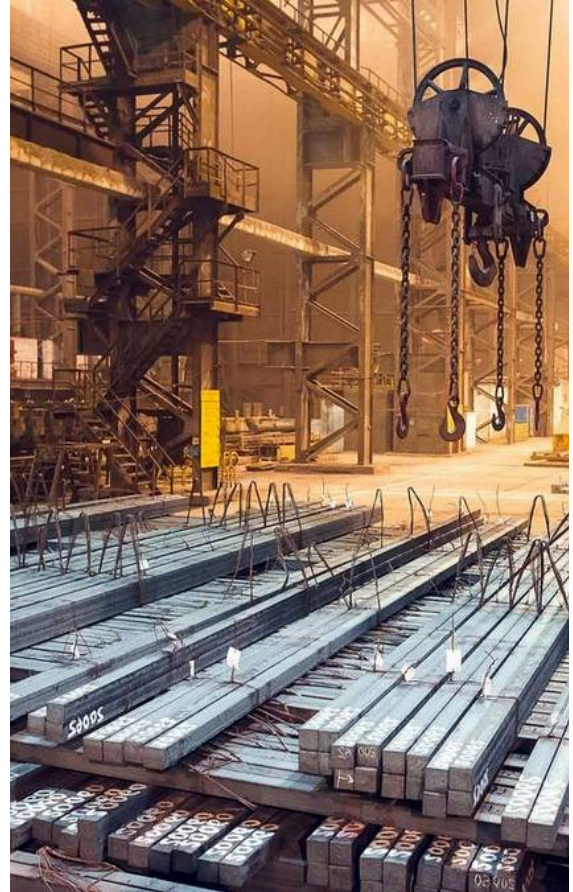

A single, reliable partner across execution, supply and sourcing

Established in 2018, Shorouk International is an Egyptian engineering, contracting and trading group specializing in mega-scale projects — infrastructure, water and wastewater management, marine works, telecommunications, and construction.

Alongside our contracting track record, we supply and support the technology behind Egypt's digital trust infrastructure, and we source and supply products and equipment for government entities, contractors, and institutions from Egyptian and international manufacturers.

We are driven by a commitment to excellence and to dependable service at every step — from technical specification through sourcing, execution, and delivery — on time, within budget, and to the highest quality standards.

- ✓ Mega-scale contracting
- ✓ International sourcing
- ✓ Institutional supply
- ✓ Tender & RFQ participation
- ✓ Technical coordination
- ✓ Long-term partnerships

1.89 B+ EGP

Mission, vision & values

01

Mission

Revolutionize the construction industry by pioneering sustainable solutions, leveraging cutting-edge technology, and fostering a collaborative environment that prioritizes safety, expertise, and client success.

02

Vision

Transform the built environment through innovative design, sustainable practices, and intelligent solutions that enhance the way people live, work, and interact with their surroundings.

03

Values

We believe in building lasting partnerships with our clients, employees, and communities. We foster a culture of collaboration, integrity, and mutual respect, where everyone's contributions are valued — and our success is measured by the positive impact we create together.

Why clients choose us

Experience

Mega-scale projects across infrastructure, telecoms, water/wastewater and construction — anticipating and mitigating challenges before they arise.

Quality

Every aspect executed to the highest standards, from planning to execution and beyond.

Efficiency

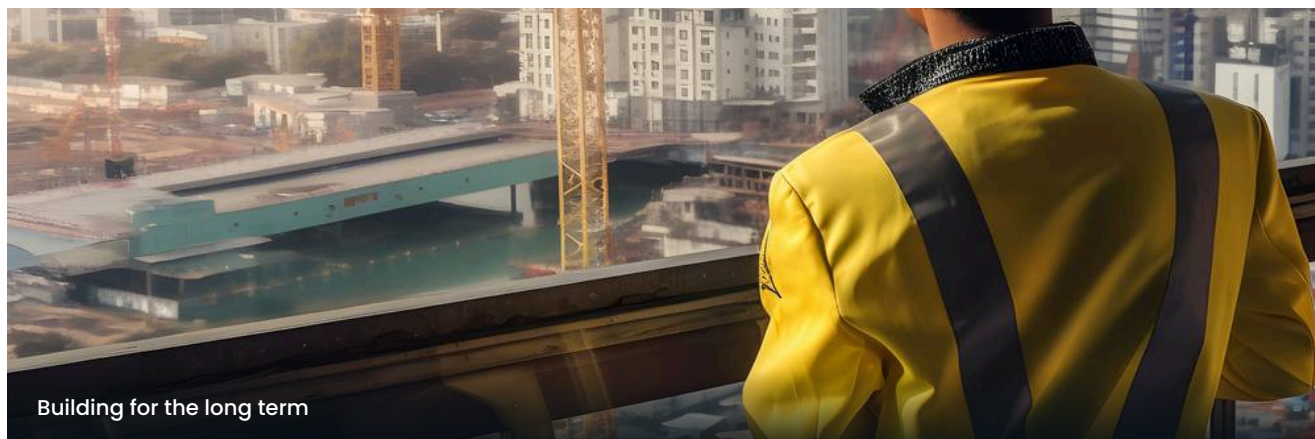

Proven project management methods and technology that hold schedule and budget.

Customer Satisfaction

We work closely with clients throughout each project to meet or exceed expectations.

Safety

Strict protocols for the well-being of employees, subcontractors, and clients.

Building for the long term

Engineering, technology & trading — under one group

Each capability can be engaged on its own or combined, depending on what a project, tender, or requirement calls for.

01 Engineering & Contracting

Construction, infrastructure, MEP, finishing, and renovation works — including sourcing the materials and equipment those projects require. From water systems and marine works to logistics facilities and campus buildings, this capability carries our track record in mega-scale delivery.

Construction

Infrastructure

Water & wastewater

Marine works & dredging

MEP

Finishing & renovation

02 Technology & Digital Trust

Supplying and supporting PKI-based products, secure USB tokens, and HSM-related equipment that underpin digital identity, e-signature, and secure authentication — backed by our partnership with EgyptTrust since 2020.

PKI infrastructure

Secure USB tokens

HSM-related products

Digital identity & e-signature

Cybersecurity

03 Trading & Supply

Sourcing from Egyptian and international manufacturers, importing and exporting, and representing manufacturers — supplying products and equipment to government entities, companies, contractors, and institutions to the client's technical specification, including through public and private tenders, RFQs, and large-volume supply contracts.

Import / export

Manufacturer representation

Tenders & RFQs

Institutional supply

Industrial goods & spares

Selected engineering & contracting projects

Mostakbal Masr Water Transmission

Construction of 11 water lines of 2,500 mm diameter — a total of 21,000 m of concrete pipe — transporting water from the eastern source of the Mostakbal Masr project.

Client	Egyptian Armed Forces Engineering Authority
Duration	10 months
Total value	EGP 1,030,000,000

Maryout Lake Development

Dredge works to develop and restore the efficiency of Maryout Lake — removing sediment and debris accumulated over time to deepen the lake, improve water flow, and enhance its overall ecological health.

Client	Canal Harbor & Great Projects Co.
Total value	EGP 705,775,000

Dekheila & Alexandria Port Works

Two operations: strengthening the breakwater and maintaining the marine berths at Dekheila Port, and maintaining and rehabilitating marine berths at Alexandria Port.

Client	Alexandria Port General Authority
Total value	EGP 65,665,911

Ports, logistics & institutional buildings

COMMERCIAL CONSTRUCTION

New Investors Building, Damietta Port

A distinguished logistics services project at Damietta Port, built outside the customs area so it can be reached without permit procedures – 1,200 m² over a ground floor and three upper floors, with 100+ units for transportation, customs clearance, shipping agencies, banks, and ATMs.

Client	Damietta Port Authority
Duration	12 months
Total value	EGP 45,000,000

MARINE INFRASTRUCTURE

Damietta Port Breakwaters

Strengthening and maintaining the western and eastern breakwaters that protect Damietta Port.

Client	Damietta Port Authority
Total value	EGP 25,500,000

EDUCATIONAL CONSTRUCTION

Galala University Social Building

Construction of the social building in the sixth residential district of Galala University – concrete structure works and finishes.

Location	Galala University, Sixth Residential District
Total value	EGP 25,000,000

The technology behind Egypt's digital trust

Alongside engineering and trading, Shorouk International supplies and supports the technology that underpins Egypt's digital trust infrastructure — secure hardware and cryptographic products that let institutions authenticate identity, sign documents, and secure transactions with confidence.

This capability is delivered in partnership with EgyptTrust, a licensed digital trust services provider — spanning public key infrastructure (PKI), secure USB tokens, and hardware security module (HSM) related products.

PKI Infrastructure

Public key infrastructure products underpinning secure digital identity.

Secure USB Tokens

Hardware tokens for e-signature and secure authentication.

HSM Solutions

Hardware security module related products for key management.

Digital Identity & E-Signature

Products supporting verified digital identity and e-signing.

Cybersecurity Solutions

Enterprise-grade security products for institutional clients.

STRATEGIC PARTNERSHIP

Partnering with EgyptTrust since 2020

Shorouk International supplies EgyptTrust with PKI-based products and secure USB tokens that support Egypt's digital identity and e-signature infrastructure.

Partner	EgyptTrust
Relationship	Supplier since 2020
Products supplied	PKI products & secure USB tokens

Trusted by leading authorities & institutions

Sectors we serve

Government & public sector Procurement, tenders, RFQs, and institutional supply.	Ports & marine Breakwaters, berths, and dredging works.	Water & wastewater Transmission lines and treatment-related infrastructure.	Technology & digital trust PKI, USB tokens, and HSM-related products.
Contractors & institutions Materials, equipment, and project supply.	Construction & real estate Contracting, MEP, finishing, and renovation.	Industrial & manufacturing Equipment, materials, and spare parts.	Education Campus and social-building construction.

How we work

STEP 01

Requirement & specification

We take in the technical specification, tender document, or project scope.

STEP 02

Sourcing & matching

Matched to a manufacturer, distribution route, or project resource — in Egypt or abroad.

STEP 03

Supply or execution

Goods imported and supplied, or works executed directly by our contracting team.

STEP 04

Delivery & handover

Delivered against the agreed terms, with one team as your single point of contact.

CONTACT

Let's build the solution together.

For procurement requirements, tender opportunities, contracting projects, technology solutions, and partnership proposals.
